

EBR – European Business Register and other initiatives in company registry cooperation

INSOURCE Conference – Prague - 2008

1st Company Law Directive 68/151/CEC, amended in 2003

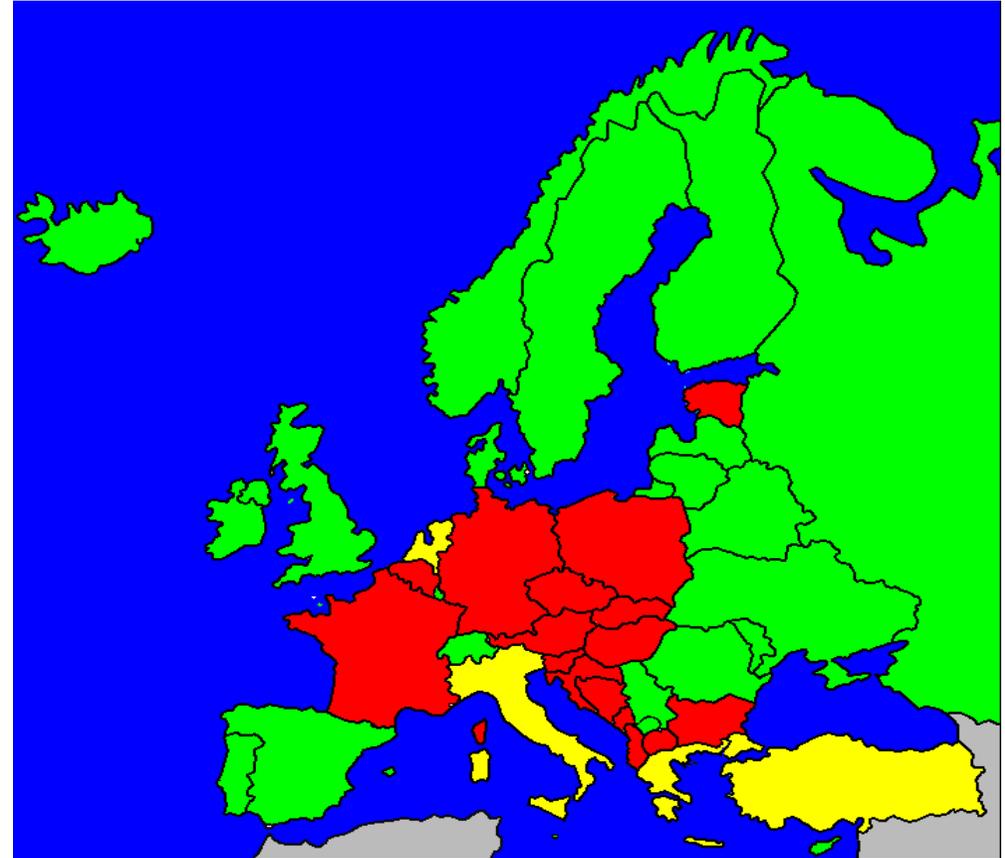

- Compulsory disclosure of documents and data at national level since from 1st January 2007 in electronic format
- Documents and data to be available to the public to ensure market transparency and protection of third parties

Business Registration in Europe

At National Level :

- Different bodies
 - Courts
 - Chambers of Commerce
 - Administrative offices

- Different organisational models
- Different rules during the registration process
- Different agreements with other national PAs

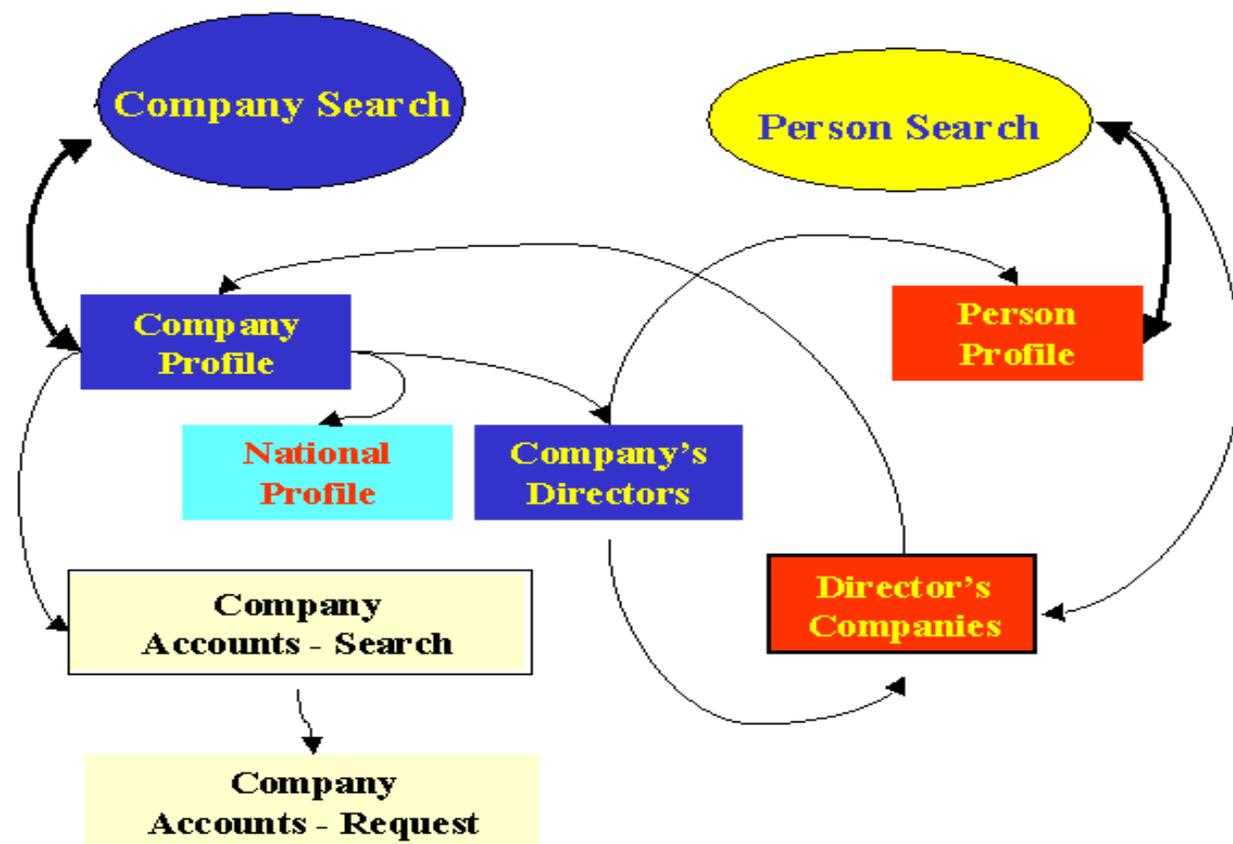

- EBR was born as initiative by some of the public bodies responsible for company registration and legal publicity, to create the telematic network to provide easy and multi-language access to the official company data all over Europe.
- 21 European Countries involved now, some more to be integrated in the next future
- **Single access point**
- **User interface in the national language**
- EBR network is coordinated by the EBR EEIG, based in Brussels

- **No changes to national systems**
- **Multi-language and multi-character set**
- **Ease of integration**
- **Low cost platforms**
- **Independence from vendors**
- **EBR as service integrated in the national service provision**

- **21 Information Providers**
- **22.000.000 Registered companies**
- **18.000.000 Active companies**
- **9 Languages currently available for the Common User Interface**

Country A

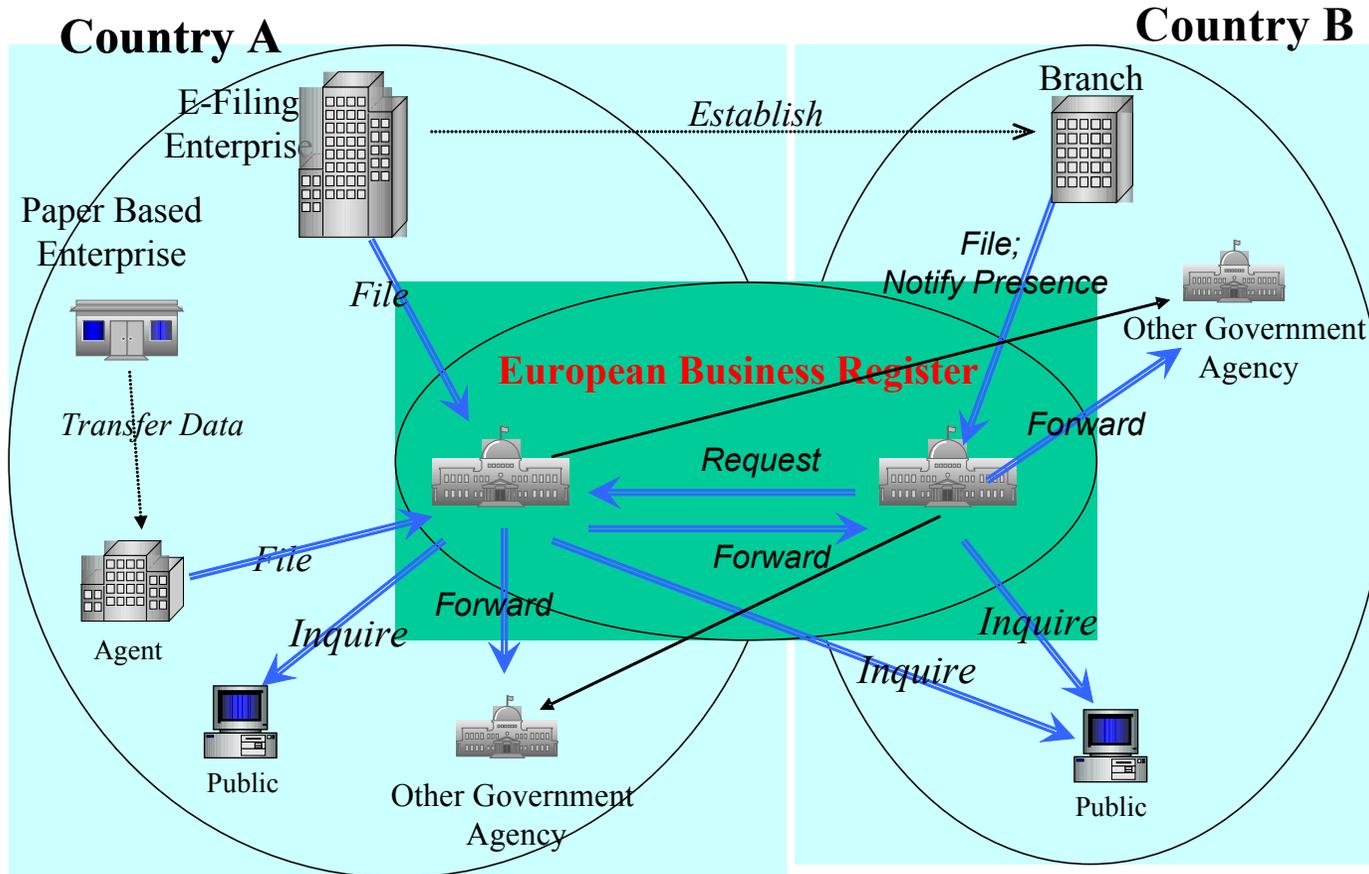

Country B

- Societas Europaea
- European private company
- Branches abroad, cross border mergers
- Anti money laundering, e-procurement, transparency of financial markets , etc
- Services Directive

A likely future scenario : the BRITE project

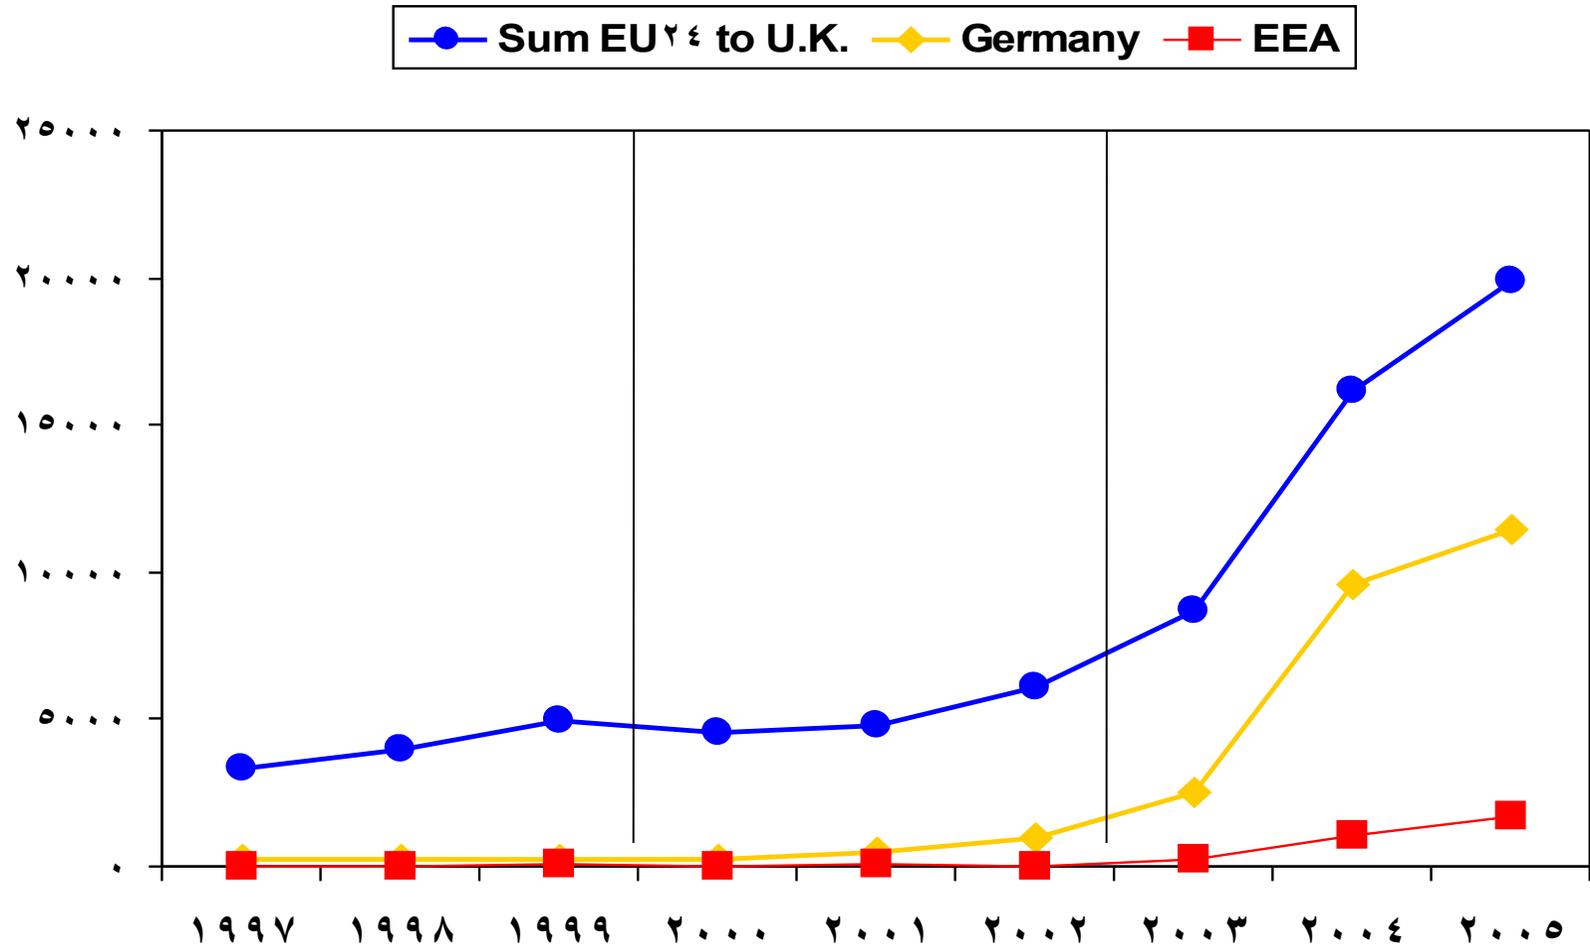

- Contract signed with Commission
- Project started on the 1st of March 2006
 - ➔ *36 months duration*
- 19 partners , with EBR EEIG as coordinator
- 7 Business Registers currently involved
- 4 more BRs involved from 1st of March 2008

BRITE will address the complete interoperability (semantic, technical and organisational) between Business Registers and will test the results with four pilots:

- **Transfer of seat for SE and application for Cross Border Mergers**
- **11th Directive enforcement and simplification**
- **Support for e-procurement take up**
- **Cross-domain interoperability**
